EXPERIENCE

Health Perspectives Group, LLC • Seattle, WA

Senior Web Developer • Nov. 2019 - July 2020

Manage and maintain all internal development for sites related to HPG and its subsidiaries. Assist in the development of emails and landing pages for business, marketing, and client campaigns. Coordinate with external development teams on shared projects between organizations or clients.

Costco Travel - Issaquah, WA

Contract Front-End Developer • Mar. 2019 – July 2019

Working with the Online Member Experience (OME) team on migrating all facets of the existing Costco Travel website to a new, responsive version. Ensuring organization of front-end scripting and styling for cohesive design and experience across all steps of booking. Create new modules for displaying travel information and map locations to end-users.

Delta Dental / Arcora Foundation • Seattle, WA

Contract Web Developer • June 2018 – Feb. 2019

Created lead gen automation queries within Salesforce Marketing Cloud (SFMC). Modified existing templates inside of Sitecore for www.deltadentalwa.com. Developed and modified existing landing pages and emails for marketing campaigns in SFMC. Designed and developed front-end for Arcora's Partner Locator tool.

Espionage Cosmetics • Tacoma, WA

Web Engineer Consultant • Nov. 2017 – Dec. 2017

Evaluated the web systems used for transactions. Built a PHP API bridge to assist in shared user data between Shopify and Cratejoy.

Getty Images • Seattle, WA

Contract Web Developer • Feb. 2015 – Oct. 2017

Marketing Operations team, focused on landing-page for digital marketing and email campaigns. Assisting in development and maintenance of active Getty Images (and affiliate) sites. Built a landing-page creation tool, and assisted in development of an email building tool, to allow non-developer members of marketing produce their own campaigns without dev oversight.

Microsoft Corporation • Redmond, WA

Contract Web Developer • Mar. 2015 – Dec. 2015

OSGFE Deliverables team; focused on development and maintenance of the updated dev.windows.com. Assisted in development for the Windows Phone companion app on Windows 10 desktop. Also, assisted in migration of dev assets into source control.

The Seattle Times • Seattle, WA

Web Developer & Engineer • Jan. 2013 – Mar. 2015

Maintained legacy systems, apps, and site. Built web applications to display archived story data. Project Lead on new dynamic *Events & Venues* widget. Facilitated database migration for legacy static page content. Modified WordPress plug-ins for blogs. Provided general web-based troubleshooting. Later, worked on a team to construct the new Seattle Times website on a WordPress core.

EDUCATION

UNIVERSITY OF NORTH TEXAS

BA in Computer Science, 2009

Bachelor's degree with courses focused on web engineering, front-end development, game development, and data storage. While there, I worked as an editor of the North Texas Daily newspaper, ultimately remaking their website and becoming the webmaster. I also studied creative writing, professional presentations and design, and Japanese.

HARLINEN HIGH SCHOOL

2004
